

# Report

Efstathios (Stathis) Stefanidis  
University College London

- The full chain for handling ESDs (Event Summary Data) & AODs (Analysis Object Data) is on the table
  - Production/Analysis of ESD,AOD using Rome samples
  - Writing & Running my own codes in athena framework...
  - ...here, at UCL
- An example: reconstruction of 173 GeV top

- As the top sector has not any link to the group's activities I will be more than happy to start any analysis with people from the group.
- WW scattering??
